HARSH KAMBOJ

harshkamboj413@gmail.com | +91 9990376004 | linkedin.com/in/hkamboj | github.com/Harsh123-k |

PROFESSIONAL SUMMARY

B. Tech Computer Science & Engineering student with hands-on experience in **secure application development**, **risk-aware system design** and **technology-led process improvement**. Practical exposure to **authentication**, **Role-Based Access Control (RBAC)**, **API security testing** and **Responsible AI** safeguards including **PII masking** and **prompt-injection protection** - applying a **security-first mindset** across **backend engineering, data workflows** and **automation projects**. Skilled in translating business and technical requirements into **structured documentation, evaluating processes** for risk, inefficiency and communicating findings clearly across technical and non-technical stakeholders. Strong analytical foundation in **SDLC**, **data-driven decision-making** and **workflow automation** with a keen interest in **Technology Risk, Cyber Security** and **Cyber Transformation consulting**.

EDUCATION

B. Tech, Computer Science and Engineering, UPES, Dehradun | CGPA: 8.24/10 July 2023 - Present

XII - CBSE, Scholars Indian School, Ras Al Khaimah, UAE | Percentage: 80.5% April 2022 - May 2023

X - ICSE, Modern Academy Sr. Sec. School, Ghaziabad, UP | Percentage: 92% April 2020 - May 2021

EXPERIENCE

Full Stack Developer Intern - Xebia, Delhi June 2026 - August 2026

Tech Stack: Node.js, Express.js, Tableau, MongoDB, Figma, Antigravity, Deployment **http://bit.ly/4f5Pdjq**

- **Developed and maintained** scalable **backend APIs** and **business workflow automation** for **The Workforce AI** platform using **Node.js, Express.js** and **MongoDB.**
- **Supported application development, debugging, testing, process improvement and technical documentation** contributing to reliable and maintainable technology solutions. Contributed to **workflow automation and data visualization initiatives** using **Tableau**, supporting **data-driven insights** and **technology-focused reporting**.

Backend Developer Intern - Ultimez Technology Private Limited, Hubballi, Karnataka June 2026 - July 2026

Tech Stack: Java, Node.js, Express.js, MongoDB, API Authentication, Swagger Documentation **https://bit.ly/4wIAylJ**

- Engineered **scalable RESTful backend services** using **Node.js, Express.js** and **MongoDB** following **MVC architecture**, **software engineering best practices** and implemented **JWT authentication**, **RBAC** to strengthen secure access and authorization across backend.
- Designed database schemas with focus on **data consistency, maintainability, and performance**, and developed, tested, debugged, and documented **REST APIs** using **Postman** and **Swagger/OpenAPI**.

PROJECTS

Clinic Front Desk Management System June 2026 - July 2026

Tech Stack: Node.js, Express.js, MongoDB, Swagger API Documentation, Postman, CRUD Operations **https://bit.ly/4aMPqGS**

- Developed a **database-driven backend application** implementing **RESTful APIs** for patient management, appointment scheduling and doctor availability using **Node.js, Express.js and MongoDB.**
- Implemented **JWT authentication and Role-Based Access Control (RBAC)** and developed, tested and documented APIs using **Postman and Swagger/OpenAPI** for secure and reliable application delivery.

HR Resume & LinkedIn Shortlisting Agent June 2025 - August 2025

Tech Stack: Python, Streamlit, Claude API, NLP/LLM, RAG, LangChain, LangGraph, Prompt Engineering **https://bit.ly/4fumeY7**

- Developed a **RAG and LLM-powered document intelligence application** using Python for semantic resume matching, structured information extraction and automated evaluation workflows.
- **Implemented Responsible AI safeguards** including **prompt-injection protection** and **PII masking** to prevent malicious inputs and protect sensitive information.

TECHNICAL SKILLS

Programming: Python, JavaScript, Java, TypeScript, SQL

Cyber Security: JWT Authentication, Role-Based Access Control (RBAC), Authentication & Authorization, PII Masking, Responsible AI

Core CS: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, SDLC, Technical Documentation

Backend & Application Development: Node.js, Express.js, REST APIs, MVC Architecture, React.js

Testing & Engineering: Unit Testing, Integration Testing, API Testing, Debugging, Postman, Swagger/OpenAPI, Git/GitHub

Databases: MySQL, PostgreSQL, MongoDB, Vector DB

Data & Analytics: Data Analysis, EDA, Data Processing, Pandas, NumPy, Data Visualization, Tableau

Data Engineering: ETL, Data Pipelines, Data Modelling, PySpark

Cloud & DevOps: AWS, CI/CD, Vercel

CERTIFICATIONS

- **AWS Certification** View Certificate
- **B.U.I.L.D** - Building Reliable Infrastructure & Deployment in Global Environments (CI/CD pipelines) View Certificate
- **Generative AI** Fundamentals View Certificate
